BATTLE RAGES ALONG THE BORDER

Mexican Federals and Rebels
Clash at Ojinaga.

MANY KILLED AND WOUNDED

Insurgents Keep Steadily on the Offensive and Gain Slowly on the Federal Stronghold—Lack of Hospital Facilities Results in the Wounded Lying on the Field Where They Fell.

Presidio, Tex., Dec. 31.—The battle between 5,000 rebels under General Toribio Ortega and the northern division of the Mexican federal army, entrenched around Ojinaga, Mex., across the border from this place, still is in progress.

The forces have been engaged for thirty-six hours and many have been killed and wounded on both sides. No bullets came across the border.

General Ortega, executing flank movements, kept steadily on the offensive, gaining foot by foot the approaches to the federal stronghold.

The federals rallied somewhat from the panic which seized many of them with the first volleys of the rebels when daylight disclosed the position of Ortega's men and put up a plucky fight against heavy odds, although their losses were heavy, both from wounds and from desertions. Many wounded and deserters waded waist deep through the river to the American side.

It was impossible even to approximate the number of dead and wounded, although many are known to have fallen on each side. Fifteen of the federal wounded who waded the river were allowed to remain and were cared for by United States army physicians, but several score unwounded federal deserters were disarmed by the United States border patrol under Major McNamee and sent back across the border.

Wounded Remain on Field.

Neither of the opposing forces is provided with hospital facilities and the wounded have been left on the hillside where they fell.

Ojinaga, a cluster of adobe buildings, stands a mile from the border at the top of high hills which line the valley through which the rebels advanced. When day dawned Ortega's men had gained the foot of a hill three miles from the village where the federals had planted a fort to command the approaches to the town.

They spread in open order along the hillside and opened a spirited fire, which was maintained all day and which was supported by the ten machine guns which they had dragged across the desert from Chihuahua. Foot by foot the rebels approached until their fire became too severe for the federals in the trenches and they retired.

A small federal force made a gallant stand in the custom house, which stands on an elevation midway between the village proper and the plain. They swept a hall of bullets across the plain which offers the main approach to the town, and for a time held the rebel forces in check.

BISHOP BANG PASSES AWAY

Primate of Norwegian Church Visited America in 1908.

Christiania, Norway, Dec. 31.—Rev. Christian Bang, bishop of Christiania, and primate of the Norwegian church, is dead. He was born in 1840.

Bishop Bang was at one time secretary to the late King Oscar of Sweden, when Norway and Sweden were united under one flag. He visited the United States in 1908 and called on President Roosevelt, to whom he brought personal greetings from King Haakon. Later he attended the unveiling at Minneapolis of the statue of Henrik Wergeland, which was presented by Norway to the Norwegians' association.

Bishop Bang delivered the coronation sermon when Norway bestowed the crown on the Danish Prince Charles in 1905.

SAY TWO ARE EMBEZZLERS

Man and Woman Charged With Theft of Valuable Stocks.

Washington, Dec. 31.—Warrants for the arrest of Miss Alice E. Malone and Sidney B. Harrison, former employees of a local branch of N. L. Carpenter & Co., New York stock brokers, were issued by the United States branch of the police court.

Miss Malone is charged with embezzlement of Philadelphia and Reading stocks valued at \$8,100, while Harrison is charged with embezzling 500 shares of the same stock estimated to be worth \$24,000.

WOMAN FAINTS AND
FALLS UNDER TRAIN.

New York, Dec. 31.—Miss Mildred Zimmerman, daughter of Gustave Zimmerman, once a famous rifle shot, fainted on the edge of a subway platform, fell upon the track in front of an express train and was killed.

Chief Counsel for Western Federation of Miners Predicts That He Will Be Able to Show Who Raised False Alarm of Fire in Hall Where Christmas Celebration Was Being Held.

Calumet, Mich., Dec. 31.—Possible identification of the man who started the Christmas eve catastrophe by calling "fire" in a crowded hall at Red Jacket was predicted by O. N. Hilton, chief counsel for the Western Federation of Miners. Mr. Hilton asked that the coroner's inquest into the tragedy of seventy-two deaths be adjourned because he desired to produce several witnesses who said they could identify the man.

The greater part of the evidence again was that the cry of fire came from within the hall. Three of the thirty or more witnesses claimed to have seen a Citizens' alliance button on the man.

Three witnesses, Mrs. Theresa Czaib, Charles Olson and Hilda Forsten, swore they saw a man wearing a Citizens' alliance button come into the door, wave his hands and cry "fire." These statements controverted the testimony of two union men who said they stood in the vestibule of the hall and that the cry came from within the place, no one wearing the insignia of the union's enemies having passed them.

Mrs. Czaib and the Forsten girl admitted under cross-examination by jurors that they had discussed their testimony with attorneys or officers of the local miners' union. Olson said he had not talked about his experience with any one connected with the investigation.

The proceedings were held in the hall where the disaster occurred and several child witnesses re-enacted their parts in the tragedy. One girl emphasized that her greatest anxiety was to save her bag of candy.

Uncompromising adherence to their determination never to recognize the Western Federation of Miners was pronounced by mine managers of the copper strike district who were willing to discuss the visit here of John B. Denmore, solicitor of the department of labor. The fact that Mr. Denmore announced his mission as one of conciliation made most of the employers shake their heads dubiously.

FIVE ACCUSED OF BRIBERY

West Virginia Legislators Alleged to Have Sold Votes.

Charleston, W. Va., Dec. 31.—That five members of the West Virginia legislature are guilty of accepting bribes in connection with the election of a United States senator at the regular session in January and February, 1913, and should be expelled, is the finding of a joint committee of the two houses of the legislature.

One member of the state senate and six members of the house of delegates were indicted last February, charged with accepting bribes to vote for Colonel William Seymour Edwards as United States senator to succeed Clarence W. Watson. Later Judge Nathan Goff of the United States circuit court was elected.

State Senator Ben A. Smith and Delegates S. U. G. Rhodes, Rath Duff, Dr. H. F. Asbury and David Hill are recommended for expulsion.

BURNS HERSELF AS OFFERING

Woman Takes Life While Suffering From Religious Mania.

Tomah, Wis., Dec. 31.—Overcome by religious emotion Mrs. August Hess, seventy years old, of Clinton, went out into a field on her home farm, poured the contents of a jug of kerosene over herself, applied a match and burned to death before help arrived.

"I am trying to make myself a burnt offering," the aged victim gasped before she died.

SHOOT A STRIKEBREAKER

Editor Kills Employee of Illinois Central Shops.

Decatur, Ill., Dec. 31.—Carl Person, editor of the Illinois Strike Bulletin, published at Clinton, shot and fatally injured Tony Musser, a strike-breaker employed at the Illinois Central shops at Clinton. The shooting was the culmination of an alleged attack on Musser through Person's paper.

Musser died twenty minutes after being shot. Person, who is secretary of the Illinois Central federation, was placed in the county jail, but was taken out of the city to escape mob violence.

WILSON SENDS CONDOLENCE

Expresses Sympathy in Death of Sweden's Queen Mother.

Washington, Dec. 31.—President Wilson sent from Pass Christian, Miss., a message to King Gustave of Sweden offering his "sincere sympathy and that of the government and people of the United States in the death of her royal highness, the Queen Dowager Sophia."

STRIKE OF KEYMEN AVERTED

Frisco System and Operators Settle Differences.

St. Louis, Dec. 31.—A strike of telegraphers on the St. Louis and San Francisco railroad was averted when the receivers reached an agreement with the grievance committee of the Order of Railway Telegraphers.

The receivers refused to give out the details of settlement, but will give them out when the terms are formally drawn up. It was announced, however, that concessions had been made by both sides.

The settlement was effected at a conference between T. W. Tyler, general manager of the Frisco, and the grievance committee of the telegraphers' union. This conference took place after the receivers and the union committee apparently had reached a deadlock.

BLIZZARD PLAYING HAVOC IN EUROPE

France, Germany, Spain and Portugal Suffer.

Paris, Dec. 31.—France and the greater part of Europe are experiencing the bitterest year end storm in a decade. Blizzards and floods have done great damage inland and gales of exceptional violence have ravaged the coasts.

In Spain and Portugal the intense cold has caused numerous deaths. In the south of France the temperature has registered some degrees below zero, Fahrenheit. Mount Vesuvius in Italy is covered with a mantle of white.

Germany is in the grip of the storms and in many places, including Berlin, there have been heavy falls of snow. In France and Southern Europe the railroads are cut in many places and this section is practically isolated so far as telegraphic communication is concerned.

Conditions are at their worst in Southern and Central France, which usually are favored by mild winters. Scores of villages which ordinarily never see snow are cut off. The suffering of the poor is intense and deaths from exposure are common.

ASKS REPUBLICAN SUPPORT

Senator Cummins Delivers Address at Des Moines.

Des Moines, Dec. 31.—Adherence to the program for the reorganization of the Republican party determined upon at the recent meeting of the Republican national committee in Washington was urged by Senator Albert B. Cummins in an address before the Grant club here.

The senator declared he had not changed his mind as to the superiority of his own plan for an extraordinary convention of the Republican party to adjust the matters of rules and representation, but he recognized that the proposed convention was "a means to an end and that the changes themselves were the substantial things to be accomplished."

With reference to the third party movement, Senator Cummins said he could not concur in the conclusion that true "progressivism" necessitated the formation of that party.

POPE'S HEALTH IS SPLENDID

Jokes About His Lack of Ability to Speak French.

Rome, Dec. 31.—Pope Pius X. is in excellent health, despite reports which have been circulating that he is indisposed. The pontiff received the diplomatic corps accredited to the Vatican, headed by the dean, Prince von Schonburg-Hartenstein, the ambassador of Austria-Hungary, who presented greetings for the new year.

The pope appeared especially bright. He even joked on his unfamiliarity with the French language.

NOT WORTH IT.

Daughter—Just think: I can get the duke for only five million! Father—He is overcapitalized.—Judge.

VILLA FORCING BANKS TO PAY

Senator Catron Says Intervention Is Inevitable.

REBELS OVERRIDING LAWS.

Champ Clark Rebukes Calamity Howlers—Says Men of All Parties Want Prosperity—Members Seek Longer Vacations—Sims Opposed to Autos For Government Employees.

By ARTHUR W. DUNN.

Washington, Dec. 31.—[Special.]—Senator Catron of New Mexico, who spent some time on the border, says that conditions are getting worse in Mexico and that rule by the United States is inevitable. He thinks preparations should now be made for bringing order to the distracted country.

While in Mexico he warned General Villa against shooting prisoners and told him the Constitutionalists were making themselves unpopular by that uncivilized method of warfare. Villa said that he was not "civilized" in the sense that he would allow those to escape who fell into his hands. The Constitutionalists do not want intervention any more than Huerta.

"FORCED LOANS."

While Villa may not be "civilized," he knows something of high finance. He secured "loans" from the banks in Juarez when he captured that place to the amount of about \$175,000, which he spent in El Paso buying food and clothing for his men. He simply told the bankers that they could loan him that money or he would have them taken out and shot. They "loaned" it, but they wish they had deposited it in the banks of El Paso. Villa uses like methods in other places.

What Will Follow?

What can be expected to follow in the track of that kind of an uprising? What will people do who have been held up like that after the army of "liberation" has passed on to other fields? Even if such an organization should capture Mexico and control the government there would be a counter revolution among those who have been despoiled.

"Villa has the Mexican idea," said Senator Catron, explaining that it was the Spanish idea which has been grafted upon the southern part of this hemisphere, which is to kill all that stand in the way of success. He has no compunctions about it, has no thought as to the rights of individuals. So long as they seem to be inimical to what he wants he has killed them.

What can be expected from "constitutionalists" who have such ideas of government and the rights of citizens?

Root's Place in History.

"Ellihu Root," said an admirer of the New York senator, "will take his place in history with Clay, Webster, Benton, Calhoun and Blaine as a man too big for the presidency. Those men, the greatest of their time, were compelled to miss the grand prize of the republic. For one reason or another they failed to achieve their greatest ambition. With Root it is a little different. He was never in a place where he could reasonably expect to be president, although Roosevelt could have nominated and elected him in 1908. Roosevelt did not dare risk the nomination of Root on account of his former corporation law practice."

All Want Good Times.

Rebuking Minority Leader Mann for crying calamity, Speaker Champ Clark in his speech said: "I think it is an incontestable statement that every good citizen of this republic—Democrat, Republican, Bull Moose, Progressivist, Socialist or what not—wants prosperity to continue, because we all have a stake in the republic, especially those of us who have wives and children."

Will Be Partisan Debate.

The leaders in the house—Underwood and Mann—were having a talk about hurrying legislation in order to get an adjournment by the 1st of June. It was Underwood who mentioned that date.

"Of course you understand that after passing the tariff bill and the currency bill you can't have a long session without having partisan debate. That is something we always granted the other side."

"I recognize that fact," replied Underwood, "and there will be opportunity for political debate, and we can adjourn by the 1st of June if we drive business while we are not debating."

Willing to Exchange.

Discussing automobiles for government officials Congressman Sims of Tennessee announced his opposition to the system. "We purchased automobiles for the president," he said, "after we had given him \$75,000 a year salary, and we have furnished him a very good house to live in, a house that we would very gladly exchange for any we occupy."

Sims might have added that quite a number of statesmen would be willing to "give a little boot."

All Too Short.

A great many members of both houses think that the holiday recess is all too short to "fix up fences" which are sadly in need of repair. There will be more leaves of absence later.

The Climbers.

After reaching the pinnacle of fame many a climber has found it an uncomfortable roof.—Atlanta Journal.

JURY IS UNABLE TO AGREE

Trial of Hans Schmidt for Murder at an End.

New York, Dec. 31.—After deliberating thirty-six hours the jury trying the case of Hans Schmidt, the former priest of St. Joseph's church, accused of the murder of Anna Ammiller, reported that it could not reach an agreement and was discharged.

The last ballot the jury took was exactly as the first. Two of the jurors stood out against conviction all the time, Foreman Ottinger said. Schmidt heard the report of the jury without emotion and then was remanded to the Tombs. The two jurors who had failed to agree with the other ten believed Schmidt was insane when he killed the woman.

STAMP CASE GOES TO SUPREME COURT

Decision Is Asked on Exploitation of Business.

Washington, Dec. 31.—After years of labor to prevent the swelling of the receipts at postoffices where the sale of stamps the postoffice depends upon the sale of stamps the postoffice department is to get a decision from the supreme court of the United States as to whether it is a criminal offense to exploit the stamp business.

The government docketed in court an appeal from the action of the federal district court in Massachusetts, quashing an indictment against Harold A. Foster, Frank E. Vincell, William S. Edwards and Henry H. Platt of conspiracy to swell the stamp sales at Brookfield, Mass., where Foster was postmaster.

Edwards and Platt were merchants in New York. Vincell was charged with purchasing large amounts of stamps for them from Foster and Foster was charged with failing to report the sale of these particular stamps to the postoffice department as unusual sales, which are taken out of the amount upon which salaries are computed. The district court held that it is not a criminal offense not to report the sales as unusual.

NEW CHARTER NOT NEEDED

State and National Must Only Apply for Reserve Bank Stock.

Washington, Dec. 31.—Banks which enter the federal reserve system do not need to take out new charters, but both state and national banks become members by making proper application and by becoming stockholders in federal reserve banks, according to a regulation issued by the reserve bank organization committee.

In its announcement the committee declares also that action by a board of directors is deemed sufficient, but advises that banks which wish to be on the safe side may sound their stockholders.

INVOKES EXTREME PENALTY

Creamery Package Manufacturing Company Is Penalized for Violating the State Anti-Trust Statute—The Amount of Fine Had Previously Been Deposited With the Clerk of Court.

Owatonna, Minn., Dec. 31.—The Creamery Package Manufacturing company, an Illinois corporation, of Owatonna and Mankato, was fined \$10,000 for a violation of the state anti-trust law by Judge Childress of the Steele county district court. The amount of the fine had been deposited with the clerk of the court and the sentence means its confiscation by the state.

The company was convicted of violating the anti-trust laws, the case being a precedent for proceedings under the state's anti-trust act terminating with the cases against the People's Ice company of St. Paul and the Minneapolis Milk company.

The case was carried by the company to the supreme court of the United States and a decision adverse to the corporation handed down in October.

Because the law provides that a foreign corporation convicted of violating its provisions must be ousted from the state the last legislature was induced to modify this rule as applied to this case.

A law was enacted providing that the company might be readmitted, if ousted, provided it paid a fine not to exceed \$10,000, the amount to be determined by the trial court.

When the federal court decided against the company this amount was deposited with the clerk and a hearing was had before Judge Childress as to the extent of the fine to be levied. Assistant Attorney General Weeks represented the state and urged that the maximum be assessed. The company expected to have \$5,000 returned.

COLONEL BEVANS IS DEAD

Minnesota War Veteran Saw Booth Shoot Lincoln.

St. Paul, Dec. 31.—Colonel Henry T. Bevans, Civil war veteran and member of the secret service detail which was guarding President Lincoln on the night of his assassination, is dead. He was seventy-four years old. Colonel Bevans had been an invalid for nearly twelve years. His death followed a general breakdown five weeks ago.

The night of the president's assassination by John Wilkes Booth in the Ford theater, Washington, Colonel Bevans was stationed in the box directly opposite that of the president. He saw Booth enter the president's box and as he started to shout a warning the assassin fired at the president and leaped to the stage. Colonel Bevans hurried from the entrance behind the box, but Booth's friends already had helped the murderer to escape.

Colonel Bevans at once organized searching parties to scour the country. He was at the head of one of these parties when Booth was discovered by other searchers in a barn a few blocks distant.

LUMBERMEN WILL APPEAL

Three Sentenced to Pay Fines of \$500 by Yankton Circuit Court.

Yankton, S. D., Dec. 31.—Before Judge R. B. Tripp the cases of a group of lumbermen reached sentence after legal delays extending from last July, when a verdict was returned against the indicted men. Judge Tripp sentenced Mr. Qual and L. C. Kroh and F. S. Vaughan each to fines of \$500. All are officers of the Qual Lumber company of Yankton. Other companies interested were granted new trials. The defendants named have given notices of appeal to the supreme court of the state.

Villa said that he was not "civilized," in the sense that he would allow those to escape who fell into his hands. The Constitutionists do not want intervention any more than Huerta.

"Forced Loans."

While Villa may not be "civilized," he knows something of high finance. He secured "loans" from the banks in Juarez when he captured that place to the amount of about \$175,000, which he spent in El Paso buying food and clothing for his men. He simply told the bankers that they could loan him that money or he would have them taken out and shot. They "loaned" it, but they wish they had deposited it in the banks of El Paso. Villa uses like methods in other places.

What Will Follow?

What can be expected to follow in the track of that kind of uprising? What will people do who have been held up like that after the army of "liberation" has passed on to other fields? Even if such an organization should capture Mexico and control the government there would be a counter revolution among those who have been despoiled.

"Villa has the Mexican idea," said Senator Catron, explaining that it was the Spanish idea which has been engrafted upon the southern part of this hemisphere, which is to kill all that stand in the way of success. He has no compunctions about it, has no thought as to the rights of individuals. So long as they seem to be inimical to what he wants he has them killed.

What can be expected from "constitutionalists" who have such ideas of government and the rights of citizens?

Root's Place in History.

"Elihu Root," said an admirer of the New York senator, "will take his place in history with Clay, Webster, Benton, Calhoun and Blaine as a man too big for the presidency. Those men, the greatest of their time, were compelled to miss the grand prize of the republic. For one reason or another they failed to achieve their greatest ambition. With Root it is a little different. He was never in a place where he could reasonably expect to be president, although Roosevelt could have nominated and elected him in 1908. Roosevelt did not dare risk the nomination of Root on account of his former corporation law practice."

All Want Good Times.

Rebuking Minority Leader Mann for crying calamity, Speaker Champ Clark in his speech said: "I think it is an incontestable statement that every good citizen of this republic—Democrat, Republican, Bull Moose, Prohibitionist, Socialist or what not—wants prosperity to continue, because we all have a stake in the republic, especially those of us who have wives and children."

And of course the speaker was applauded.

Will Be Partisan Debate.

The leaders in the house—Underwood and Mann—were having a talk about hurrying legislation in order to get an adjournment by the 1st of June. It was Underwood who mentioned that date.

"Of course you understand that after passing the tariff bill and the currency bill you can't have a long session without having partisan debate. That is something we always granted the other side."

"I recognize that fact," replied Underwood, "and there will be opportunity for political debate, and we can adjourn by the 1st of June if we drive business while we are not debating."

Willing to Exchange.

Discussing automobiles for government officials Congressman Sims of Tennessee announced his opposition to the system. "We purchased automobiles for the president," he said, "after we had given him \$75,000 a year salary, and we have furnished him a very good house to live in, a house that we would very gladly exchange for any we occupy."

Sims might have added that quite a number of statesmen would be willing to "give a little boot."

All Too Short.

A great many members of both houses think that the holiday recess is all too short to "fix up fences" which are sadly in need of repair. There will be more leaves of absence later.

FOR VIOLATION OF STATE LAW

HANS SCHMIDT.
Jury Disagrees in the New York Murder Trial.

JURY IS UNABLE TO AGREE

Trial of Hans Schmidt for Murder at an End.

New York, Dec. 31.—After deliberating thirty-six hours the jury trying the case of Hans Schmidt, the former priest of St. Joseph's church, accused of the murder of Anna Amuller, reported that it could not reach an agreement and was discharged.

The last ballot the jury took was exactly as the first. Two of the jurors stood out against conviction all the time, Foreman Ottlinger said. Schmidt heard the report of the jury without emotion and then was remanded to the Tombs. The two jurors who had failed to agree with the other ten believed Schmidt was insane when he killed the woman.

STAMP CASE GOES TO SUPREME COURT

Decision Is Asked on Exploitation of Business.

Washington, Dec. 31.—After years of labor to prevent the swelling of the receipts at postoffices where the salary of the postmaster depends upon the sale of stamps the postoffice department is to get a decision from the supreme court of the United States as to whether it is a criminal offense to exploit the stamp business.

The government docketed in court an appeal from the action of the federal district court in Massachusetts, quashing an indictment against Harold A. Foster, Frank E. Winchell, William S. Edwards and Henry H. Platt of conspiracy to swell the stamp sales at Brookfield, Mass., where Foster was postmaster.

Edwards and Platt were merchants in New York. Winchell was charged with purchasing large amounts of stamps for them from Foster and Foster was charged with failing to report the sale of these particular stamps to the postoffice department as unusual sales, which are taken out of the amount upon which salaries are computed. The district court held that it is not a criminal offense not to report the sales as unusual.

NEW CHARTER NOT NEEDED

State and National Must Only Apply for Reserve Bank Stock.

Washington, Dec. 31.—Banks which enter the federal reserve system do not need to take out new charters, but both state and national banks become members by making proper application and by becoming stockholders in federal reserve banks, according to a regulation issued by the reserve bank organization committee.

In its announcement the committee declares also that action by a board of directors is deemed sufficient, but advises that banks which wish to be on the safe side may sound their stockholders.

INVOKES EXTREME PENALTY

Creamery Package Manufacturing Company Is Penalized for Violating the State Anti-Trust Statute—The Amount of Fine Had Previously Been Deposited With the Clerk of Court.

Owatonna, Minn., Dec. 31.—The Creamery Package Manufacturing company, an Illinois corporation, of Owatonna and Mankato, was fined \$10,000 for a violation of the state anti-trust law by Judge Childress of the Steele county district court. The amount of the fine had been deposited with the clerk of the court and the sentence means its confiscation by the state.

The company was convicted of violating the anti-trust laws, the case being a precedent for proceedings under the state's anti-trust act terminating with the cases against the People's Ice company of St. Paul and the Minneapolis Milk company.

The case was carried by the company to the supreme court of the United States and a decision adverse to the corporation handed down in October.

Because the law provides that a foreign corporation convicted of violating its provisions must be ousted from the state the last legislature was induced to modify this rule as applied to this case.

A law was enacted providing that the company might be readmitted, if ousted, provided it paid a fine not to exceed \$10,000, the amount to be determined by the trial court.

When the federal court decided against the company this amount was deposited with the clerk and a hearing was had before Judge Childress as to the extent of the fine to be levied. Assistant Attorney General Weeks represented the state and urged that the maximum be assessed. The company expected to have \$5,000 returned.

COLONEL BEVANS IS DEAD

Minnesota War Veteran Saw Booth Shoot Lincoln.

St. Paul, Dec. 31.—Colonel Henry T. Bevans, Civil war veteran and member of the secret service detail which was guarding President Lincoln on the night of his assassination, is dead. He was seventy-four years old. Colonel Bevans had been an invalid for nearly twelve years. His death followed a general breakdown five weeks ago.

The night of the president's assassination by John Wilkes Booth in the Ford theater, Washington, Colonel Bevans was stationed in the box directly opposite that of the president.

He saw Booth enter the president's box and as he started to shout a warning the assassin fired at the president and leaped to the stage. Colonel Bevans hurried from the entrance behind the box, but Booth's friends already had helped the murderer to escape.

Colonel Bevans at once organized searching parties to scour the country. He was at the head of one of these parties when Booth was discovered by other searchers in a barn a few blocks distant.

LUMBERMEN WILL APPEAL

Three Sentenced to Pay Fines of \$500 by Yankton Circuit Court.

Yankton, S. D., Dec. 31.—Before Judge R. B. Tripp the cases of a group of lumbermen reached sentence after legal delays extending from last July, when a verdict was returned against the indicted men. Judge Tripp sentenced Mr. Queal and L. C. Kroh and F. S. Vaughan each to fines of \$500. All are officers of the Queal Lumber company of Yankton. Other companies interested were granted new trials. The defendants named have given notices of appeal to the supreme court of the state.

PRIMARY LAW AUTHOR DEAD

J. B. Sharpe Succumbs to Rheumatism at His Home.

Bismarck, N. D., Dec. 31.—J. B. Sharpe, fifty-seven years old, president of the First National bank at Kulm, died of rheumatism after a lingering illness. He was formerly state senator from La Moure county, was the author of the present primary law and was once a candidate for lieutenant governor. Sharpe was a bachelor.

Northern Pacific Railway to Build
an Extension to the Duluth-
Brainerd Mine

FEIGH LANDS CHECK DRILLED

Minnesota Central Railway Com-
pany to Get Busy with a Corps
of Surveyors in Field

The Northern Pacific railway com-
pany has signed up a contract, it is
reported, to build an extension of
their line from the Cuyuna-Mille Lac
mine to the Duluth-Brainerd mine in
section 32, township 47, range 29, to
be completed not later than April 30,
1914, to enable them to take care of
their shipments early next season.
The shaft, which is situated in the
southeast quarter of the northeast
quarter of the section, is a large three
compartment one, and is now over
six feet in the ledge. Actual sinking
was started less than 60 days ago and
the work done establishes a record in
shaft sinking. The hundred feet
additional which the shaft will be
sunk will be through rock, and at
that level drifting will be commenced.

Railway work of the Northern Pa-
cific now in progress is the construc-
tion of the line along the south shore
of Rabbit lake to the timber shaft of
the Kennedy mine of the Rogers,
Brown Ore Co. at Cuyuna. McMen-
emy & Bumgardner of St. Paul, have
the contract for construction work.

W. H. Locker has returned from
Philadelphia where he has closed
contracts for next year's shipment of
ore. People at Pittsburg and other
iron centers were pleased with their
experience with Cuyuna range ore
for furnace work. The iron's pec-
uliar granular structure makes it
easy flowing and easy melting.

The Cuyuna-Duluth mine has
struck a new lense of ore to the east
of the shaft in unexplored territory,
said to average 64 per cent. It is
reported that the Cuyuna-Duluth
mine will produce at least 200,000
tons in 1914 and probably 250,000
tons.

The Cuyuna-Mille Lac mine has
enough ore sold in advance to keep it
busy this season and next. The mine
is producing ore uninterruptedly from
the first level, while the second level,
owing to pumpage trouble, is not be-
ing worked yet. Electricity may be
used at this mine for hoisting.

The Pennington and Thompson pit
mines are making good headway in
their stripping operations. The mild
weather has enabled the Rowe mine
to do much stripping and to utilize
their hydraulic plant to its fullest
capacity. Capt. Barr has the work
there well in hand.

Near the Pennington pit mine, the
Thomas Feigh lands are being check
drilled by the Jones & Laughlin
Steel company of Pittsburg, the work
being done under the direction of
Capt. Thomas Walters, of Ishpeming,
Mich., the general manager of the
mining department.

The Ironport Park Land company,
owning lands south of Smith's ad-
dition, Ironport, has a crew of men at
work clearing streets and alleys.
Lots will be placed on the market in
spring.

The Adams mine at Oreland is en-
gaged in drifting and will stockpile
this winter. The Oreland Townsite
company has platted Adams addition
to Oreland on part of the south ten
acres of the northeast quarter of the
northeast quarter of section 30,
township 46, range 28.

The Minnesota Central Railway
company, with offices in the Alworth
building, Duluth, had a meeting of
its board of directors and a corps of
engineers will be placed in the field
to outline its route and to establish
grades. George I. Reid is the presi-
dent of the company. The Minne-
sota Central Railway company se-
cured the franchise to build and op-
erate a street railway in Brainerd
and with that city as a base, the in-
tention is to build an interurban elec-
tric to tap the Cuyuna range. The
company has a year's time to begin
construction work and within two
years must have three and within
three years five miles of track in op-
eration in Brainerd.

On January 5, 1914, the city coun-

Clint and Bessie Robbins at the Opera
House Tonight

oil of Brainerd will take up the bids
for the development of its mineral
lands on a royalty basis. Sentiment
in the city favors the leasing of the
same to an operating and not to a
holding company. Brainerd people
want something done, they do not
care to have a large company tie it up
and hold it for ages.

The county commissioners will on
January 6 consider bids for the leas-
ing on a royalty basis of the county
poor farm, lying on the south range
mineral belt. Twenty-five cents a
ton is the lowest bid the law allows.
Here too, the people want a company
which will do something, not hold the
land.

Early in the spring a drill will be
put on new land east of Brainerd,
in the south half of the northeast
quarter of section 33, township 45,
range 30. Erick Kronberg and as-
sociates of Brainerd will also have
land drilled near this point.

The week between Christmas and
New Year will be quiet on the range,
as most of the drill crews take that
week as a vacation. The Armour
No. 2 and the Kennedy mine of the
Rogers, Brown Ore Co. have laid off
their men for the holidays, pending
which needed repairs will be made to
the shafts. Both these mines resume
work on January 5.

It is reported that F. A. Edson, of
Deerwood, has made a good strike in
land he is drilling north of Rabbit
lake. Judge James T. Hale, of Deer-
wood, has discontinued drilling in
section 32, township 46, range 28.
J. J. McAuliffe and others are re-
ported to have made a very good find
of ore in section 27, township 47, range
29. Daniel Waite and associates have
again put a drill to work north of
Pendall, in Morrison county. The
Mackey Ore Co. of Hibbing, has im-
portant mineral lands in Dean Lake
township.

Cust Johnson, also known as Gust
Janison, has given an option for a
lease to Charles W. Potts, of Deer-
wood, covering lot 1, the east half
of lot 2, and the northeast quarter
of the southeast quarter of section 17,
township 47, range 28. This option
he has assigned to the Touloumeo
Mining company. James E. Peterson,
trustee, has assigned to the same com-
pany an option covering the south
half of the southeast quarter of sec-
tion 17, township 47, range 28, and
Charles W. Potts has assigned to the
same company on the same descrip-
tion the royalty.

Considerable dissatisfaction was ex-
pressed on the Cuyuna range over the
unfounded report sent out from Cros-

river or lake had burst in on a north
range mine. All the mining exper-
ience of the district sets such a re-

FEIGH LANDS CHECK DRILLED

**Minnesota Central Railway Com-
pany to Get Busy with a Corps
of Surveyors in Field**

The Northern Pacific railway com-
pany has signed up a contract, it is
reported, to build an extension of
their line from the Cuyuna-Mille Laes
mine to the Duluth-Brainerd mine in
section 32, township 47, range 29, to
be completed not later than April 30,
1914, to enable them to take care of
their shipments early next season.
The shaft, which is situated in the
southeast quarter of the northeast
quarter of the section, is a large three
compartment one, and is now over
six feet in the ledge. Actual sinking
was started less than 60 days ago and
the work done establishes a record
in shaft sinking. The hundred feet
additional which the shaft will be
sunk will be through rock, and at
that level drifting will be commenced.
Railway work of the Northern Pa-
cific now in progress is the construc-
tion of the line along the south shore
of Rabbit lake to the timber shaft of
the Kennedy mine of the Rogers,
Brown Ore Co. at Cuyuna. McMen-
emy & Bumgardner of St. Paul, have
the contract for construction work.
W. H. Locker has returned from
Philadelphia where he has closed
contracts for next year's shipment of
ore. People at Pittsburgh and other
iron centers were pleased with their
experience with Cuyuna range ores
for furnace work. The iron's pec-
uliar granular structure makes it
easy flowing and easy melting.
The Cuyuna-Duluth mine has
struck a new lense of ore to the east
of the shaft in unexplored territory,
said to average 64 per cent. It is
reported that the Cuyuna-Duluth
mine will produce at least 200,000
tons in 1914 and probably 250,000
tons.

Early in the spring a drill will be
put on new land east of Brainerd,
in the south half of the northeast
quarter of section 33, township 45,
range 30. Erick Kronberg and as-
sociates of Brainerd will also have
land drilled near this point.
The week between Christmas and
New Year will be quiet on the range,
as most of the drill crews take that
week as a vacation. The Armour
No. 2 and the Kennedy mine of the
Rogers, Brown Ore Co. have laid off
their men for the holidays, pending
which needed repairs will be made to
the shafts. Both these mines resume
work on January 5.
It is reported that F. A. Edson, of
Deerwood, has made a good strike in

portant mineral lands in Dean Lake

wood, covering lot 1, the east half
of lot 2, and the northeast quarter of
the southeast quarter of section 17,

pany an option covering the south
half of the southeast quarter of sec-
tion 37, township 47, range 28, and
Charles W. Potts has assigned to the
same company on the same descrip-
tion the royalty.

Considerable dissatisfaction was ex-
pressed on the Cuyuna range over the
unfounded report sent out from Cros-

lot of water before adequate pumpage
promptly unwatered the mine. The
Thompson and Pennington pit mines
are as dry as a bone and have un-
covered little water.

Leon E. Lum, of Duluth, has as-
signed to Samuel F. Snively, a lease
covering the north half of the north-
west quarter of the southeast quarter,
the north half of the south half of the
northwest quarter of the southeast
quarter and the north half of the

DECISION IN THE TELEPHONE CASE

Judge W. S. McClenahan Quashes Alternative Writ of Mandamus

PREEMPTORY WRIT IS DENIED

In the Minnesota Telephone Co. vs the City of Brainerd et al

Judge W. S. McClenahan has rendered a decision in what is popularly known as the Minnesota Telephone Co. case, wherein that company sought to enjoin the city council to accept their proposed plans for installing a telephone exchange in the city of Brainerd.

The alternative writ of mandamus heretofore issued is ordered quashed and the preemptory writ prayed for is denied.

The city council claimed that the so called franchise, Ordinance No. 208, has been abandoned by reason of the fact that the grantee did not within one year and never has established a telephone line into the city of Brainerd within the meaning of the terms of such ordinance and that by reason of such abandonment the city council on October 6, 1913 passed a resolution to that effect.

Judge McClenahan in his memorandum says in part: "It is not easy to construe the single connection mentioned in Ordinance 208 to mean a connection that would constitute a feeder to the Northwestern Company. In fact, it is difficult to believe that, in providing for this connection either company considered that it was then, or thereafter would be, acting pursuant to or within the grant to the relator."

"As already stated, a connection in the manner here disclosed made no call for Ordinance 208, unless, indeed, it might be upon a theory not apparent in this record and, if it were, not entitled to favorable consideration."

"It is but fair to presume that an opportunity for legitimate competitive business was then in the minds of the parties, and not the furnishing of a basis for subterfuge. In this connection attention is directed to the fact that the relator had exchange privileges in Brainerd for more than six years without attempting, until now, to comply with the conditions precedent to the exercise of that right as provided for in the ordinance in question."

"Until now, this course indicated only an abandonment of the grantee's rights under that ordinance, but the present effort is suggestive of evasive motives in the past."

"The city cannot be required to submit to a fast and loose policy, nor to merely speculative methods of construction."

"The relator was not required to establish a local exchange within the year limited, or within any specified time, except during the life of the franchise, but it was required to perfect at least a long distance line into the city, within a year, as an independent enterprise, or suffer a forfeiture. This it has not done, and the right of the city to take advantage of Section 5 of the ordinance seems clear."

The Man Who Neglects Himself

When his condition points to kidney trouble takes an unwise risk. Backache, pain and soreness over the kidneys, nervous or dizzy spells, poor sleep, are all symptoms that will disappear with the regular use of Foley Kidney Pills. They put the kidneys and bladder in a clean, strong and healthy condition. H. P. Dunn.—Adv.

EVER WATCHFUL

A Little Care May Save Many Brainerd Readers Future Trouble

Watch the kidney secretions. See that they have the amber hue of health; The discharge not excessive or infrequent; Contain no "brick-dust like" sediment.

Doan's Kidney Pills are especially for weak kidneys.

Let a Brainerd citizen tell you how they work.

A. D. Lindberg, 720 Elm St., Brainerd, Minn., says: "Some time ago I was an awful sufferer from kidney complaint. The secretions from my kidneys were unnatural and I had a dull, heavy pain in my back. It was almost impossible for me to bend over, and when I caught cold the trouble was worse. Finally I used Doan's Kidney Pills that I got at John's drug store, and they rid me of the pains and other kidney ailments. I haven't had any kidney trouble to speak of since."

Price 50c, at all dealers. Don't ask for a kidney remedy—get Doan's Kidney Pills—the same that Lindberg had. Foster-Milburn Props., Buffalo, N. Y.—Adv.

Not Beyond Help at 87

Deep-disturbing bladder weakness, pains in joints, weak, inactive action and rheumatic pains—evidence of kidney trouble. Dr. A. Dean, 47 E. Walnut St., Mass., writes: "I have passed my 77th birthday, and thought I was beyond the reach of medicine. But Foley Kidney Pills have proved beneficial in my case." H. P. Dunn.—Adv.

CITY CAMPAIGN ON FULL BLAST

Church Pulpits of Seven Churches to Have Speakers for the New Charter Sunday Evening

WATSON S. MOORE IS COMING

The Duluth Publicist to Speak at a Mass Meeting Scheduled for Monday Evening

The city campaign for a new charter is on in full blast and a whirlwind finish will mark the propaganda to spread before the people the merits of the business manager plan of commission government.

The churches, in keeping with the plan of fostering what tends to the social betterment of the city, have opened their pulpits and will discuss the new charter on Sunday evening, January 4.

The churches and their speakers are as follows: First Baptist church, Assistant City Attorney B. J. Broady.

First Methodist church, Prof. W. C. Cobb.

First Presbyterian church, City Attorney D. A. Haggard.

Seventh Street Norwegian Lutheran, Attorney Gustav Halvorson.

Swedish Lutheran church, County Attorney G. S. Swanson.

Zion Evangelical church of North-east Brainerd, H. F. Michael.

On Monday evening Watson S. Moore, a prominent publicist of Duluth, will address a mass meeting which will be held either at the opera

On the reverse side is: "Can You Beat It?"

The district is glad to hear of the engagement and the Dispatch huris a verbal bouquet at the happy couple by offering heartiest congratulations and assuring them that life for Mr. Wyman and his intended will be one grand perpetual song 200 words a minute and that the future Mrs. Wyman will have no trouble in dictating to her husband because he has been a court reporter for years and has had to take the most difficult kinds of dictation and is therefore of a tractable and mild disposition. He is possessed of a good memory and the future Mrs. Wyman will find that he will pay good heed to any opinions she may give out. Mr. Wyman is a good listener and that is another fine recommendation. He has sat in cases and for days has listened to reams of testimony and never said a word.

Men who know can assure Mr. Wyman that his humor does not die when one exchanges single blessedness for the married state. Lots of married men are real jokes, and many a smart little woman knows it and chuckles to herself as she conceals the fact from her husband.

TO SPEAK AGAINST THE NEW CHARTER

Mass Meeting Will be Held at Walker Hall on Friday Evening, January 2, 1914

O. M. THOMASON WILL SPEAK

Socialist Organizer Will Endeavor to Show Why it Should Not Become a Law

The business manager plan of commission government is to be thoroughly threshed out of a mass meeting to be held in Walker hall on Friday evening, January 2.

O. M. Thomason, the socialist organizer of the district, will discuss proposed new city charter and will endeavor to show it should not become our next form of municipal administration.

FOR THE CHARTER

The articles appearing under this head are edited by the Citizens Committee who are caring for the publicity of the new charter.

Dayton, Ohio, 116,557 (1910 census) vs Brainerd, Minn. (8,526)

A few months ago Dayton emerged from the muds of Ohio river floods. Shortly thereafter it adopted the city manager plan of government by a decisive vote.

Galveston, Texas, ten years ago, after a similar disaster, made a complete change of government and adopted the commission form of government.

Evidently Dayton appreciated the value of the manager plan at a time when real work had to be done expeditiously, thoroughly, systematically and economically. The new government was necessary. Does it not make you wonder why the Dayton people did not trust their mayor, their alderman and their boards to do that work, and why they should prefer a change of government? These officials, of course, are elected because of political qualifications.

Dayton has hired a skilled business manager whom they pay \$12,000 per year. Do you wonder at the salary. It is economy in the end with them. The salary is commensurate with the work the manager is expected to perform and can perform.

Why, Dayton even tried to get Col. Goethals, the Panama canal builder, because the people felt that of all men he surely could bring order out of disorder, and put system into their government, which was what they most desired.

Dayton has a population of 116,557 people according to the 1910 census, and Brainerd 8,526. Dayton is flood-stricken and anxious to rebuild bigger than ever. Brainerd is not flood stricken but is at the doors of prosperity and is anxious to expand and develop. Now give us a flexible government. Brainerd don't need a Goethals nor need pay a salary of \$12,000.00. Staunton, Va., a town of 10,604 population, pays its manager \$2,400.00.

We promise to pay for what we receive, And we'll get what our community needs.

Cataract Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Cataract is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonic known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Cataract. Send for testimonials free. F. J. CHENEY & CO., Toledo, O.

DECISION IN THE TELEPHONE CASE

Judge W. S. McClenahan Quashes Alternative Writ of Mandamus

PREEMPTORY WRIT IS DENIED
In the Minnesota Telephone Co. vs the City of Brainerd et al

Judge W. S. McClenahan has rendered a decision in what is popularly known as the Minnesota Telephone Co. case, wherein that company sought to enjoin the city council to accept their proposed plans for installing a telephone exchange in the city of Brainerd.

The alternative writ of mandamus heretofore issued is ordered quashed and the preemptory writ prayed for is denied.

The city council claimed that the so called franchise, Ordinance No. 208, has been abandoned by reason of the fact that the grantee did not within one year and never has established a telephone line into the city of Brainerd within the meaning of the terms of such ordinance and that by reason of such abandonment the city council on October 6, 1913 passed a resolution to that effect.

Judge McClenahan in his memorandum says in part: "It is not easy to construe the single connection mentioned in Ordinance 208 to mean a connection that would constitute a feeder to the Northwestern Company. In fact, it is difficult to believe that, in providing for this connection either company considered that it was then, or thereafter would be, acting pursuant to or within the grant to the relator."

"As already stated, a connection in the manner here disclosed made no call for Ordinance 208, unless, indeed, it might be upon a theory not apparent in this record and, if it were, not entitled to favorable consideration."

"It is but fair to presume that an opportunity for legitimate competitive business was then in the minds of the parties, and not the furnishing of a basis for subterfuge. In this connection attention is directed to the fact that the relator had exchange privileges in Brainerd for more than six years without attempting, until now, to comply with the conditions precedent to the exercise of that right as provided for in the ordinance in question."

"Until now, this course indicated only an abandonment of the grantee's rights under that ordinance, but the present effort is suggestive of evasive motives in the past."

"The city cannot be required to submit to a fast and loose policy, nor to merely speculative methods of construction."

"The relator was not required to establish a local exchange within the year limited, or within any specified time, except during the life of the franchise, but it was required to perfect at least a long distance line into the city, within a year, as an independent enterprise, or suffer a forfeiture. This it has not done, and the right of the city to take advantage of Section 5 of the ordinance seems clear."

The Man Who Neglects Himself

When his condition points to kidney trouble takes an unwise risk. Backache, pain and soreness over the kidneys, nervous or dizzy spells, poor sleep, are all symptoms that will disappear with the regular use of Foley Kidney Pills. They put the kidneys and bladder in a clean, strong and healthy condition. H. P. Dunn.—Adv. mwf

A Little Care May Save Many Brainerd Readers Future Trouble
Watch the kidney secretions. See that they have the amber hue of health. The discharge not excessive or infrequent.

Contain no "brick-dust like" sediment. Doan's Kidney Pills are especially for weak kidneys.

Let a Brainerd citizen tell you how they work. A. D. Lindberg, 720 Elm St., Brainerd, Minn., says: "Some time ago I was an awful sufferer from kidney complaint. The secretions from my kidneys were unnatural and I had a dull, heavy pain in my back. It was almost impossible for me to bend over, and when I caught cold the trouble was worse. Finally I used Doan's Kidney Pills that I got at John's drug store, and they rid me of the pains and other kidney ailments. I haven't had any kidney trouble to speak of since."

FOLEY KIDNEY PILLS

FOR BACKACHE KIDNEYS AND BLADDER

ROYAL BAKING POWDER

Is the Housewife's Greatest Help.

WHAT so tempting to the laggard appetite as a light, flaky, fruit short cake or a delicate hot biscuit?

Royal makes the perfect short cake, biscuit and muffin, and improves the flavor and healthfulness of all risen flour-foods.

It renders the biscuit, hot-bread and short cake more digestible and nutritious, at the same time making them more attractive and appetizing.

Royal Baking Powder is indispensable for the preparation all the year round of perfect foods.

For the New Year

The short noon weeps that the hours are fleet
And hides the steps of the sun's bright feet,
But the moon laughs low in the midnight sky,
For she sees the sun's face from her throne on high.
Behind the blank of the vaporous seas
Gleam still, as of old, the Hesperides.
The bloom of the rose tree is withered and goes,
For a new flower sleeps in the root of the rose.
And spring shall come with a flute and a dance,
And wake new passion and old desire.
The sunset poppies shall flame and pass
Out of the clusters of cool young grass.
And the brook shall dance against warm green leaves
And the brown fields murmur with shocks and sheaves.
Out of the city that roars and cries
I send you a dream of delight of the eyes.
Out of the heart of the winter time
I send you a leaf from the young year's prime.

Out of the toil and the trouble of night
I send you a song of the dawn's delight.
For all things die to arise again,
Save pain and sorrow, the shadow of pain.
And beyond the reach of the rack and the rod
There remaineth a rest for the people of God.
—Edmund Gosse.

Added a Postscript.

A man was on trial before a western judge for horse stealing, and when it came time for the lawyers on both sides to tell the judge what instructions they wanted him to give to the jury in addition to the points covered in his own charge the attorney for the defense said, "I respectfully ask your honor to instruct the jury that it is a fundamental principle of law in this country that it is better for ninety-nine guilty men to escape than for one innocent man to be found guilty."
"Yes, that is true," said the judge, "and I so instruct the jury, but I will add that it is the opinion of the court that the ninety-nine guilty men have already escaped."—New York Tribune.

MISFORTUNE.

Disappointment and misfortune are not always evils. Disappointment will make us conversant with the noble part of our nature. It will chasten us and prepare us to meet accident on higher ground the next time. As Hannibal taught the Romans the art of war, so is all misfortune only a stepping stone to fortune.—H. D. Thoreau.

1913-1914.

RING out the old; ring in the new;
Ring happy bells across the snow.
The year is going, let it go,
Ring out the false; ring in the true.
—Tennyson.

Even as You and I.

TEN good resolutions standing in a line.
Our hero stepped upon a tack; then there were nine.

Nine good resolutions. Our hero stayed out late—
"A poor, sick friend," was his excuse—then there were eight.

Eight good resolutions, with a little leaven.
A poker party with the "boys;" then there were seven.

Seven good resolutions barely half alive.
"Oh, what's the use?" our hero asked; then there were five.

Five good resolutions battered, bruised and sore.
Our hero had to go to "lodge;" then there were four.

Four good resolutions as nervous as could be.
Our hero lighted a cigar; then there were three.

Three good resolutions wearing crape and rue.
Our hero shook the "bones" for beers; then there were two.

Two good resolutions. When the play was done,
A lobster supper served for two; then there was one.

One good resolution out for air and sun.
The winter wagon ran away; then there was none.
—John Northern Hilliard in Judge.

REVERSING THE ORDER.

The old year dies and the new year
But time plays on with the selfsame pawns;
And still, for all we may say or do,
"New" is but "old" set the other end to.

The old year was "new" few moons ago,
And new year as "old" we soon shall know.
For ever this ancient truth is found—
The "new" is "old" turned the other way round.

The old year goes, with its aged grief;
The new year comes with youthful eyed belief.
But deep though we quaff illusion's cup,
Still "new" is "old" turned the other side up.
—Frederick Moxon.

Good Cheer.

HAVE you had a kindness shown?
Pass it on.
"Twas not given for you alone.
Pass it on.
Let it travel down the years,
Let it wipe another's tears,
Till in heaven the deed appears.
Pass it on.
—New York Tribune.

Mending Without Sewing.

Here is a simple and efficacious way of mending a tear, three cornered or otherwise, in an article of clothing: Place the cloth flat on a table and smear a little white of a raw egg all around and over the tear on the reverse side. Now cut a piece of linen (a handkerchief will do a little larger than the tear and place it over the rent so that it adheres to the white of egg. Then get a hot iron and simply press it without ironing, over the linen. The linen will adhere firmly to the cloth and will not come off even if washed. The rent in the material will now be almost invisible on the outside, and the mending will last as long as the dress or suit.—London Answers.

Mr. Seabury came from the office one night and told his wife he had been to see the doctor.

"He said I was all tired out," said Seabury, "and he thinks I ought to go away on a fishing trip."

"But, of course, you don't believe him," responded the wife.

"Why not?" queried Seabury in surprise.

"Well," said Mrs. Seabury, "you didn't have any confidence in him when he told me I ought to go to Europe."—New York Times.

"A Happy New Year!"

[Written by a Carrier.]

It takes lots of men in a newspaper shop,
And all must keep busy or presses will stop.

The Editor's certain that he's the big noise.

He looks more important than the carrier boys;

He sits at a desk, and he bosses the works

And keeps the gang jumpin' like so many Turks.

But what is the use of his work in good shape

If the Carrier fails to deliver the page?

THE Reporters are pretty important young chaps;

They write about weddings, hoss races and scraps.

Of course they are needed to hunt up the news,

But if you should ask for my own honest views

I'd say the Reporter needs legs more than brains,

For he spends his time running from hotels to trains.

But what good is all the Reporters can do

If the Carrier don't bring the paper to you?

THE printers and pressmen are all worth their pay;

They do their work well and with little to say.

They are needed at times, and so is the clerk

Who takes in the money, though that is not work.

But the guy that's the real thing, the one who cuts ice,

The fellow whose value can't be fixed at a price,

Is the one who begins when the others are through

And hurries to bring the paper to you.

lease from George E. King and wife of Linn county, Iowa on 320 acres situated in the south half of the southwest quarter, the northeast quarter of the northwest quarter, the north half of the northeast quarter, the north half of the southeast quarter of section 27 and the northwest quarter of the southwest quarter of section 33, township 47, range 29. On January 26, 1912 modifications were made in the lease releasing and surrendering certain lands from the operation of the lease. The northwest quarter of the northeast quarter of section 27, township 47, range 29 was leased to Mr. Merritt for a term ending August 7, 1957 and by him later assigned to the North Star Mining company. Ten cents a ton royalty is paid the Kings and 20 cents a ton to the North Star Mining company. The minimum output will be 10,000 tons for each of the first three years, 25,000 tons for each of the fourth and fifth years and 50,000 tons a year thereafter.

George Smart, editor of Iron Trade Review, of Cleveland, Oh., under date of December 25, says: "Last year, at this time, contracting for the movement of ore was being done at a lively rate, but this year there is no thought of contracting at the present time, nor is any consideration being given to ore prices."

H. Cole Estep, of Chicago, associate editor of the Iron Trade Review, says: "As the year draws to a close general relief is expressed by leaders in the iron and steel industry over the passage of the currency bill. It is believed that this measure will be of material assistance in reducing the credit stringency which is the principal cause of the prevailing trade depression."

The amount of ore on dock at Cleveland, Ohio, December 1 is the smallest in years, which is not saying, however, that it is not ample for all requirements. No steps have as yet been taken to establish the 1914 market and probably will not be for some time."

FOLEY KIDNEY PILLS
FOR RHEUMATISM KIDNEYS AND LIVER

SLEEP DISTURBING BLADDER WEAKNESS
BACK ACHE AND RHEUMATISM VANISH

Even Most Chronic Sufferers Find Quick Relief

A few doses of Hindipio never fail to relieve such troubles, because it cleans out the clogged up, inactive organs, and makes them work properly. It soaks right into the kidneys, cleans out the little filtering cells and glands; neutralizes the urine so it no longer irritates the tender membranes of the bladder; dissolves the poisonous uric acid substances that lodge in the joints and muscles, and scratch and irritate, and cause rheumatism, and cleans out and strengthens the lifeless kidneys so they can filter and sift the poison from the blood, and drive it out of the system.

So sure—so positive—so quick and lasting are the results obtained from Hindipio that three doses a day for a few days are often all that is required to end the worst backache, regulate the most annoying bladder disorders and put the kidneys in healthy, active condition.

It is practically impossible to take this quick-acting, effective preparation without results.

An original package costs but a trifle and all druggists are authorized to return the purchase price if Hindipio fails to promptly give desired results, regardless of how old you are or how long you have suffered.—Johnson's Pharmacy—Adv.

ROYAL BAKING POWDER

Is the Housewife's Greatest Help.

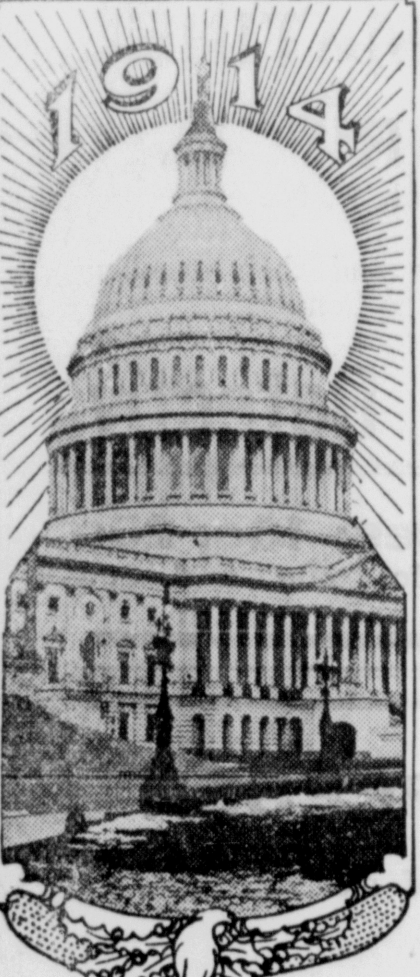

WHAT so tempting to the laggard appetite as a light, flaky, fruit short cake or a delicate hot biscuit?

Royal makes the perfect short cake, biscuit and muffin, and improves the flavor and healthfulness of all risen flour-foods.

It renders the biscuit, hot-bread and short cake more digestible and nutritious, at the same time making them more attractive and appetizing.

Royal Baking Powder is indispensable for the preparation all the year round of perfect foods.

For the New Year

The short noon weeps that the hours are fleet
And hides the steps of the sun's bright feet,
But the moon laughs low in the midnight sky,
For she sees the sun's face from her throne on high.

Behind the blank of the vaporous seas
Gleams still, as of old, the Hyperides.
The bloom of the rose tree is withered and gone,
But a new flower sleeps in the root of the rose.

And spring shall come with a flute and a song
And wake new passion and old desire.
The scum of poppies shall flame and pass
Out of the clusters of cool young grass.
And the brook shall dance against warm stones
And the brown fields murmur with shocks and sheaves.

Out of the city that roars and cries
I send you a dream of delight of the eyes.
Out of the heart of the winter time
I send you a leaf from the young year's prime.

Out of the toil and the trouble of night
I send you a song of the dawn's delight.
For all things die to arise again,
Save pain and sorrow, the shadow of pain.
And beyond the reach of the rack and the rod
There remaineth a rest for the people of God.

Added a Postscript.
A man was on trial before a western judge for horse stealing, and when it came time for the lawyers on both sides to tell the judge what instructions they wanted him to give to the jury in addition to the points covered in his own charge the attorney for the defense said, "I respectfully ask, your honor to instruct the jury that it is a fundamental principle of law in this country that it is better for ninety-nine guilty men to escape than for one innocent man to be found guilty."

"Yes, that is true," said the judge, "and I so instruct the jury, but I will add that it is the opinion of the court that the ninety-nine guilty men have already escaped."—New York Tribune.

MISFORTUNE.

Disappointment and misfortune are not always evils. Disappointment will make us conversant with the noble part of our nature. It will chasten us and prepare us to meet accident on higher ground the next time. As Hannibal taught the Romans the art of war, so is all misfortune only a stepping stone to fortune.—H. D. Thoreau.

1913-1914.

RING out the old; ring in the new;
Ring happy bells across the snow.
The year is going, let it go,
Ring out the false; ring in the true.
—Tennyson.

Even as You and I.

TEN good resolutions standing in a line.
Our hero stepped upon a tack; then there were nine.

Nine good resolutions. Our hero stayed out late.
"A poor, sick friend," was his excuse—then there were eight.

Eight good resolutions, with a little leaven.
A poker party with the "boys;" then there were seven.

Seven good resolutions barely half alive.
"Oh, what's the use?" our hero asked; then there were five.

Five good resolutions battered, bruised and sore.
Our hero had to go to "lodge;" then there were four.

Four good resolutions as nervous as could be.
Our hero lighted a cigar; then there were three.

Three good resolutions wearing crape and rue.
Our hero shook the "bones" for beers; then there were two.

Two good resolutions. When the play was done,
A lobster supper served for two; then there was one.

One good resolution out for air and sun.
The water wagon ran away; then there was none.
—John Northern Hilliard in Judge.

REVERSING THE ORDER.

The old year dies and the new year dawns,
But time plays on with the selfsame dawn.
And still, for all we may say or do,
"New" is but "old" set the other end to.

The old year was "new" few moons ago,
And new year as "old" we soon shall know.
For ever this ancient truth is found—
The "new" is "old" turned the other way round.

The old year goes, with its aged grief;
The new year comes with youthful eye and belief.
But deep though we quaff illusion's cup,
Still "new" is "old" turned the other side up.
—Frederick Moxon.

Good Cheer.

HAVE you had a kindness shown?
Pass it on.
"Was not given for you alone."
Pass it on.
Let it travel down the years,
Let it wipe another's tears,
Till in heaven the deed appears.
Pass it on.
—New York Tribune.

Mending Without Sewing.

Here is a simple and efficacious way of mending a tear, three corners or otherwise, in an article of clothing: Place the cloth flat on a table and smear a little white of a raw egg all around and over the tear on the reverse side. Now cut a piece of linen (a handkerchief will do) a little larger than the tear and place it over the rent so that it adheres to the white of egg. Then get a hot iron and simply press it, without ironing, over the linen. The linen will adhere firmly to the cloth and will not come off even if washed. The rent in the material will now be almost invisible on the outside, and the mending will last as long as the dress or suit.—London Answers.
